## Fortifications of Sveti Anastas Island

- 9. Sveti Anastas Island is located three kilometers east of the port of Burgas. Semi-basement warehouses for storing ammunition and concrete buildings for housing the garrison have been built on the island. Artillery and antiaircraft guns have been put up.
- 10. No foreign ships are allowed to go near the island. Only Bulgarian ships visit it, and they must have special permission to do this.
- 11. The garrison on the island consists of 50 or 60 men, including some Soviets. It is served by a patrol boat which comes from Burgas every day.
